RESOURCES

Many of the articles in the reference list offer useful resources. Probably the best up to date single starting point to guide readers, and provide an overview of issues is the recent publication:

Froggatt, D., Fadden, G., Johnson, D.L., Leggatt, M. & Shankar, R. (Eds.) (2007). Families as Partners in Care: A Guidebook for Implementing Family Work. Toronto: World Fellowship for Schizophrenia and Allied Disorders.

Copies of sample family work policies and implementation plans are available through the author, and the Somerset Family Service also have a range of policies and strategy documents, so making contact with those experiences in the area is useful.

Back copies of Meriden Newsletter available on the Meriden Programme website, www.meridenfamilyprogramme.com also contain useful articles e.g. on implementing family work in different service areas such as Assertive Outreach or on Home Treatment Teams that readers will find helpful.

Dr Gráinne Fadden
